## Part A: Pupil Premium Strategy Plan

### Statement of Intent

Our intention is that all pupils, irrespective of their background or the challenges they face, make good progress and achieve high attainment across all subject areas. The focus of our pupil premium strategy is to support disadvantaged pupils to achieve that goal, including progress for those who are already higher attainers.

We will consider the challenges faced by all our vulnerable pupils and the activity outlined in this statement is also intended to support their needs, regardless of whether they are disadvantaged or not.

Our aim is to ensure that our pupils are not disadvantaged because of their socio-economic context. Disadvantaged pupils within an advantaged area face other challenges, which as a school we are very aware of. We believe that with the correct support all pupils can achieve their full potential, as long as the provision meets their needs.

#### **Our ultimate objectives are to:**

- Remove barriers to learning created by poverty, family circumstance and background
- Narrow the attainment gaps between disadvantaged pupils and their non-disadvantaged counterparts both within school and nationally
- Ensure ALL pupils are able to read fluently and with good understanding to enable them to access the breadth of the curriculum
- Develop confidence in their ability to communicate effectively in a wide range of contexts
- Enable pupils to look after their social and emotional wellbeing and to develop resilience.
- Access a wide range of opportunities to develop their knowledge and understanding of the world

#### **Our Context**

The socio-economic circumstances of parents are generally favourable. 17.6% of our children are disadvantaged (pupil premium) - twelve children in total, three were previously looked after children, eight who are eligible for a free school meal and one child who is 'Ever 6'. The proportion of pupils with special educational needs is 19.1%, which includes ten pupils with SEN support plans (14.7%) and three pupils with Education Health and Care Plans (4.4%) and another two needs assessments are in the process of being completing – one child in Y6 and another in Y5.

#### **Achieving our Objectives:**

In order to achieve our objectives and overcome identified barriers to learning we will:

- Provide all teachers with high quality CPD to ensure that pupils access effective quality first teaching
- Provide targeted intervention and support to quickly address identified gaps in learning including the use of small group work, 1:1 tuition
- Target funding to ensure that all pupils have access to trips, residential, first hand learning experiences
- Provide appropriate nurture support to support pupils in their emotional and social development.

This is not an exhaustive list and strategies will change and develop based on the needs of individuals.

#### **Key Principals:**

We will ensure that effective teaching, learning and assessment meets the needs of all pupils through the rigorous analysis of data. Class teachers will identify through the class pupil premium plan specific intervention and support for individual pupils which will be reviewed at least termly.

Alongside academic support, we will ensure that those pupils who have social, emotional and mental health needs will access high quality provision from appropriately trained adults.

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Number	Detail of challenge
1	Pupils entering the EYFS with language and listening skills below their developmental age and stage. A lack of early language skills within the early years impacts on pupils ability to hear sounds when practising blending and segmenting. Thus impacting on early reading and fluency.
2	Pupils achieve well by the end of KS1 but fail to convert to a greater depth standard due to gaps in prior knowledge.
3	<p>Our assessments and observations evidence that the well-being of many of our disadvantaged pupils have been impacted by partial school closures to a greater extent than for other pupils (this is supported by national studies).</p> <p>This has resulted in more significant wellbeing, pastoral and mental health needs and support for the family.</p>
4	<p>Observations and discussions with pupils evidence that the majority of our pupils have limited experiences beyond their immediate environment little cultural capital experiences.</p> <p>This impacts on pupils understanding of elements of the curriculum and further on language and communication.</p>

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
To improved oral language and communication skills	Assessments (speech and language therapist reports, teacher assessments) and observations indicate significantly improved communication and oral language skills.
Reduce the gap between non PP and PP pupils achieving Greater Depth in Reading, Writing and Maths at the end of KS2. To achieve and sustain improved % of children working at age related expected or all pupils in our school, particularly our disadvantaged pupil. Increase the number of disadvantaged pupils achieving 'high standard' at KS2	Internal data and national assessments will show an increase in the number of children working at age related expectation year on year and an increase in the number of disadvantaged pupils achieving the higher standard at the end of KS2.
To achieve and sustain improved wellbeing for all pupils in our school, particularly our disadvantaged pupil.	Sustained high levels of wellbeing and mental health demonstrated by : <ul style="list-style-type: none"> <li>• Qualitative data from pupil voice, pupil and parent questionnaires and teacher observations.</li> <li>• A reduction in the number of wellbeing and mental health concerns raised by parents and staff. Evidenced by records of concerns, our mental health register, CPOMs (safeguarding records).</li> <li>• Observations of children's engagement in learning .</li> </ul>
Improve cultural and childhood experience for all pupils across school.	Cultural capital experiences (visits and visitors included) are planned and embedded in our curriculum.  A wide range of free (or very low cost) extra-curricular activities are available to all pupils.  Where necessary funding will be provided to ensure all children have access to all of the cultural capital experiences we provide.  The school will seek additional financial support from the 'School Church House' fund and the 'Up & Over' 'charity which provides support for families who are struggling to pay for adventure residential.

## Activity in this Academic Year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

**Total budgeted cost: £24,105**

**Part B: Review of outcomes in the previous academic year**  
**Pupil premium strategy outcomes**

End of KS2 Data:

In Warmingham CE Primary two out of the eight pupils in Year 6 were considered disadvantaged (1 FSM and Ever 6) – 20% of the cohort.

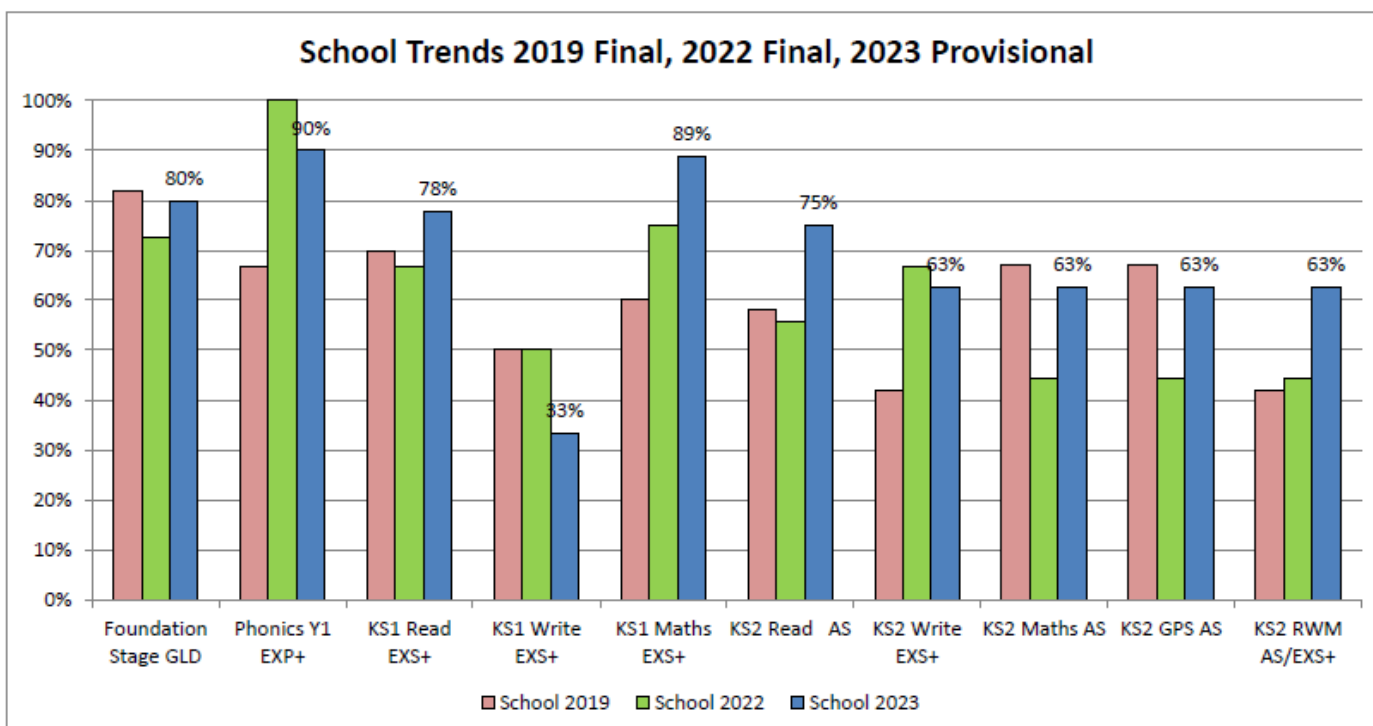

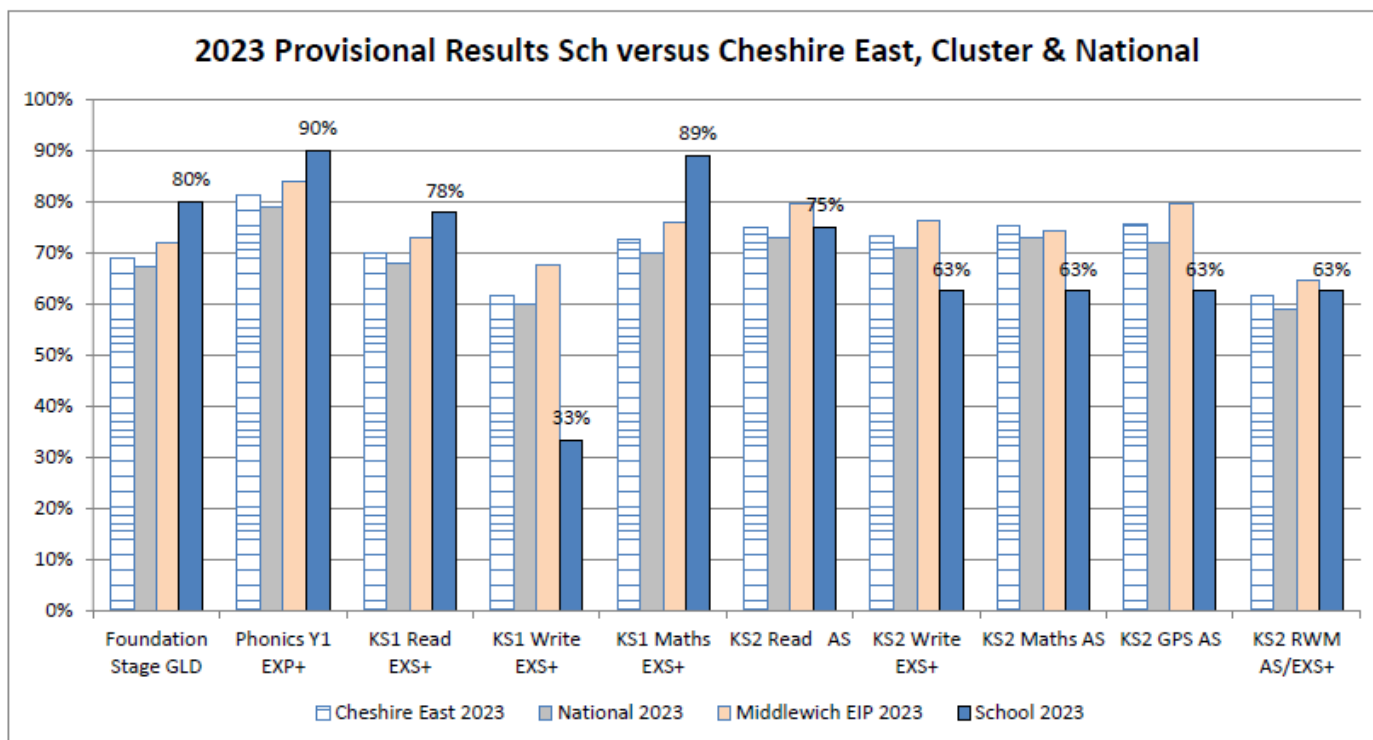

One had special educational needs – 1 EHCP for MLD & SEMH

One child was considered vulnerable.

Both children were in the low prior attainment band for reading, writing and maths.

1 out of 2 reached the expected standard for reading, making outstanding progress across KS2. The other child made good progress in reading.

Neither reached the expected standard in writing or maths, however they both made good progress across KS2.
